Yuri Belanoschenko, EMBA-7
URALSIB MANAGEMENT COMPANY, GENERAL DIRECTOR

Three key reasons why you should choose the Executive MBA SKOLKOVO programme:

- › Tuition fits in perfectly with your requirements even if you have a packed schedule. You will gain access to a vast amount of useful knowledge without having to take a break from work or family.
- › Professors from the best Western business schools come to Russia in order to share their knowledge, methodologies and experience.
- › You will also gain access to an incredible level of Russian networking. Throughout your life you will never enjoy such an opportunity to get to know such a large number of successful and famous people available to you during the one and a half years you study at SKOLKOVO.

At the same time, you will remain part of a single community that will enable you to resolve a vast number of assignments and projects.

We all know that in sport it is impossible to achieve major success without a trainer. Let SKOLKOVO become your trainer in busi

When I was choosing an Executive MBA Programme, I naturally compared SKOLKOVO to leading international business schools. At that time SKOLKOVO was still a fairly new school, and I was concerned that it might not meet international standards.

As it turned out, the level of teaching at SKOLKOVO was extremely high. I also perceived as a key advantage the four-day educational format requiring attendance of programme modules once a month without leaving the country – from Thursday to Sunday.

I was also pleasantly surprised by the composition of the actual group: it was extremely varied in terms of business expertise and life experience. Development-wise I benefited as much from knowledge-sharing and exchanging experience within the group and establishing joint business projects as I did from the academic component.

Kirill Varlamov, EMBA-4
DIRECTOR, INTERNET INITIATIVES DEVELOPMENT FUND
